05000352/2008007 and 05000353/2008007

Dear Mr. Pardee:

On August 21, 2008, the U.S. Nuclear Regulatory Commission (NRC) completed a team inspection of your Limerick Generating Station (LGS) Units 1 and 2. The enclosed report documents the team's results, which were discussed on August 21, 2008, with Mr. Mudrick and other members of your staff.

The inspection examined activities conducted under your license as they relate to the implementation of B.5.b Phase 2 and 3 mitigating strategies, your compliance with the Commission's rules and regulations, and with the condition of your operating license. Within these areas, the inspection involved examination of selected procedures and records, observation of activities, and interviews with station personnel.
